

Dear Friends of the SLCAM,

January, 14, 2010

Following the devastating disaster in Haiti, the SLCAM has decided to initiate a project to raise much-needed funds to aide those in need with essentials such as drinking water, shelter and food. The committee will work closely with medical teams and non-profit organizations in the effected area to ensure every dollar raised will be well spent.

During the Tsunami in 2004 we were able to assist Sri Lanka with over \$30,000.00 in funds, medical supplies, water purification equipment and shelter. With your assistance on this project, the SLCAM plans on extending it's arms far beyond the borders of Montreal and the beaches of Sri Lanka.

Thanking you in advance for your contribution, generosity and support.

Sincerely,

Minesh Perera
